

ALREADY BUILT / LIVE / PROVEN

Square to Fourth Workforce Integration

The integration already exists and is proven in live operation at squaretofourth.store. Client onboarding covers Square OAuth, Fourth configuration, mapping and scheduled delivery.

ONBOARDING, END TO END

01 Connect

Create the client workspace and complete Square OAuth authorisation.

02 Configure

Set the Fourth connection, locations and employee mappings.

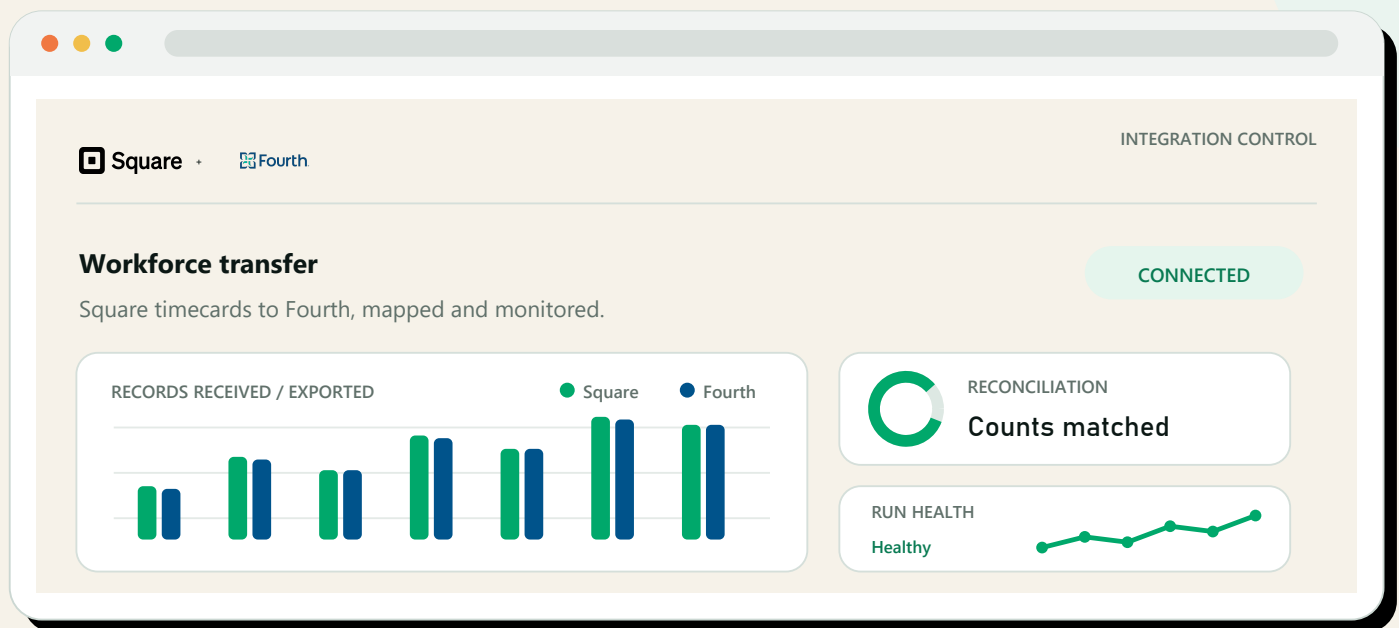

03 Launch

Reconcile the first transfer, record sign-off and enable scheduling.

HOW IT WORKS

Controlled daily transfer.

At squaretofourth.store, the service connects Square, confirms the mappings and exposes the operational signals needed to monitor every transfer.

LIVE OPERATIONS / SQUARETOFOURTH.STORE

01 Authorise

A Square seller administrator signs in on Square's own OAuth screen and approves read-only access.

02 Map

Square locations and team members are matched to Fourth site codes and EmployeeNumber values.

03 Transfer

Completed timecards are transformed, uploaded and retained with a clear audit result.

READ-ONLY OAUTH

No Square password is shared

The portal stores renewable OAuth tokens for TIMECARDS_READ and EMPLOYEES_READ. The seller's login stays with Square.

SECURE

AUTHORISED ACCESS

ONBOARDING PACK

What onboarding includes.

We configure the existing live integration from initial access through to a reconciled first transfer and operational handover.

01 Client workspace

Create the client brand, invitation and operator access.

02 Square authorisation

Complete OAuth and store renewable read-only tokens.

03 Fourth configuration

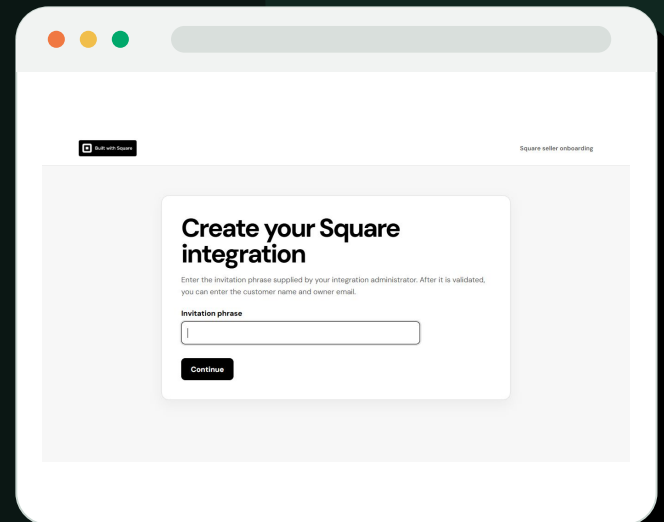

Set the endpoint, credentials, organisation and sites.

04 Data mapping

Match locations and team members to Fourth identifiers.

05 Validation + launch

Reconcile the first transfer, sign off and schedule.

CUSTOMER PROVIDES

- Square seller administrator
- Fourth endpoint and credentials
- Organisation and site identifiers
- EmployeeNumber mapping export
- Completed day and validation contact

ONBOARDING IS COMPLETE WHEN

01 Connected

Square and Fourth access is verified for the client.

02 Reconciled

The first day's people, timecards and worked hours match.

03 Running

Fourth accepts the upload and recurring delivery is enabled.

COMMERCIALS

One service. Two ways to pay.

Choose a discounted all-in bundle or monthly billing for the same 12-month integration service.

SINGLE LOCATION

£1,795 ONBOARDING + 12 MONTHS

£149.58 per location / month equivalent

Monthly option: £495 + 12 x £149 (£2,283 total)

8 LOCATIONS BEST VALUE

£2,999 ONBOARDING + 12 MONTHS

£31.24 per location / month equivalent

Monthly option: £1,250 + 12 x £295 (£4,790 total)

UPFRONT BY INVOICE / BANK TRANSFER / MONTHLY BY STRIPE OR BANK TRANSFER

EVERY 12-MONTH PLAN INCLUDES

01 **Secure hosting**

Managed integration runtime

02 **Token lifecycle**

Secure storage and refresh

03 **Scheduled transfer**

Automated daily delivery

04 **Run monitoring**

Counts, health and exceptions

05 **Audit history**

Payloads and responses

06 **Standard support**

Operational assistance

PAY MONTHLY

Recurring Stripe subscription or an agreed bank-transfer schedule.

PAY UPFRONT

One annual invoice by Stripe or bank transfer, with the stated discount.

BESPOKE CHANGES

£600/day, only when work falls outside the established integration.

Commercial scope

12-month agreement; prices exclude VAT and vendor fees. The eight-location plan covers the eight sites agreed at onboarding; additions are quoted first.

NEXT STEP

Nominate the Square and Fourth contacts, then send the mapping pack.
